SUMMARY

MCA student with proficiency in Data Structures and Algorithm, object-oriented programming and software development, and hands-on experience in building user-friendly interfaces. With a strong problem-solving mindset, I build reliable applications using clean code and logical solutions to improve technical performance.

EDUCATION

Master of Computer Application	CGPA - 7.40
Swami Vivekananda University Barrackpore , West Bengal	Aug 2024 - Jun 2026
Bachelor of Computer Application	CGPA - 8.06
Bengal School of Technology and Management Chinsurah , West Bengal	Jul 2021 - Jun 2024

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python

Frontend: HTML, CSS, React.js, Redux, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, Langchain

PROJECTS

CineFusion - Sentiment Analysis–Based Movie Recommendation System | [Github](#)

- Built a movie recommendation system combining content-based filtering with sentiment analysis, improving recommendation relevance compared to metadata-only methods.
- Enhanced user review processing by integrating sentiment modeling, increasing recommendation accuracy and personalization.
- **Tech Stack** - Python, FastAPI, Langchain, Hugging Face

Vehicle Docs 360 - Vehicle Entry Management Using QR Code | [Github Live Demo](#)

- Developed a full-stack web application to digitize vehicle entry at factories, replacing manual gate records with a QR-based system and reducing paperwork by 80%.
- Improved entry verification speed by 50% and reduced human errors in record-keeping by over 90% through automated QR scanning and validation.
- **Tech Stack** - React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Context API

HearMedi - AI Powered Medicine Assistant | [Github Live Demo](#)

- Built a GenAI-driven web app that analyzes medicine packet images and generates explanations, reducing manual lookup time.
- Integrated OCR for text extraction and OpenAI + Murf AI for generating voice + text explanations, improving accessibility of medical information for non-technical users.
- **Tech Stack** - React.js, Tailwind CSS, TypeScript, OpenAI GPT model, Murf AI
